

Report on National Cyber Olympiad

Inter-School Information Communication Technology Quiz Contest Kathmandu, Nepal

Introduction

With the aim to provide an extracurricular platform for talented students interested in Information Technology sector, Brush-Up online have been organizing Inter School Information Communication Technology (ICT) Quiz Contest. The event brings together more than 45 teams to compete together for the title of champions. The previous events were successfully held in Kathmandu with the charming participants of schools, students, teachers, event sponsors and supporters as well as the good effort of organizing committee.

Objectives of the National Cyber Olympiad

Cyber Olympiad is conceived with the following **objectives** in mind:

- An innovative platform for extracurricular activities for students to display and get rewarded for outstanding talent;
- A competitive arena where each student seeks to achieve 'gold', for himself/herself as well as for the school he/she represents;
- Enhance and spread the knowledge of Information Technology amongst common school children of Kathmandu valley;
- An opportunity for unity in diversity through mutual collaboration and sharing amongst different school in Kathmandu valley;
- A productive and profitable investment for sponsors of the event who earn maximum leverage in terms of brand promotion and appeal;
- The first in a series of annual events to mark this noble cause.

As per the objectives made, this session of quiz contest was able to fulfill its objectives with the support from different helping hands.

Below are the major events held in course of the quiz contest:

I. Organizing team's meetings/preparation

In order to make the event successful, organizing committee met up regularly on timely basis to formulate action plans, divide tasks, implement the plans and work in coordination with the team to make this event a grand one. To mention some of the works done are:

- Making proposals of the event and delivering it to possible sponsors, media concerns and related bodies
- Prepare questions maintaining high-level privacy
- Distribute the registration form to different schools around the Kathmandu valley (Note: almost about 100 schools got the official invitation letter of the event and many others were invited through emails)
- Collection of registration form and fees
- Preparations regarding venue, sound systems, stationery items and so on.

II. Orientation programme

With the aim of providing the general information to the participants and concerned parties, a orientation programme for this year's quiz contest is scheduled for 26th August 2016 (10th Bhadra 2073)

The program will consist of representatives from different institutions and the main focus will be given to talk about general ideas, the rules, the quiz structure and overall contest itself.

A Tie-sheet for qualifying phase is prepared to schedule and map the participating groups.

III. Qualifying Round

A week after the orientation, the qualifying games usually take place.

In the year 2071, the qualifying game was held on 22nd and 23rd of Bhadra.

Conclusion

To sum up, **First and Second Inter School Information Communication Technology Quiz Contest** has set a milestone in the history.

We are very satisfied with the impact that we have been able to make. As an organizer, Brush-Up Online is immensely pleased to conduct such record-keeping educational events in ICT field getting a huge support from different bases. The events have remained successful, we hadn't aimed of making the event a successful one but also feel delighted to inform you that we have climbed one step of a ladder, we still have thousand steps to reach our destination. The success of the event has given energy to do more in this field in the coming days too.

Thank you!
